## ICT FOR MIGRANTS KA210-YOU

## KICK OFF MEETING

The kick-off meeting of our "ICT FOR MIGRANTS" project with the participation of all project partners started with a meeting in Fontainebleau, the historical city of France, hosted by EU-HumanACT.

On the first day of the meeting, which took place in the Assembly Hall of Fontainebleau Town Hall, we were welcomed by Mrs Judith Reynaud, Deputy Mayor of Fontainebleau and responsible for cultural activities. We explained the content of our project to her and she showed great interest in the project.

On the opening day of the meeting, the partners of our project, Eurospeak, Kepder, EgestionPyme and EU-HumanACT, met in the Assembly Hall of the Fontainebleau Town Hall. Each partner presented their history, their views on the project and their experience with Erasmus projects.

The second day hosted a series of sessions where future planning was discussed. The partners came together at the meeting, determined the project calendar and started preliminary preparations for future events. Detailed plans were made for the Bursa meeting, which will be hosted by KEPDER between 19-23 March 2024. As an important step, the logo of the project was also introduced at the meeting. The design process of the logo was completed and a strong symbol reflecting the identity of the project was created. Social media accounts were created.

In addition, the Handbook (Guide), which is an important output of the project, was also discussed. Within the scope of the project, 2 digital guides will be prepared for you. The first one will provide a detailed methodology for leading training courses, while the second one will provide a comprehensive guide on using information and communication technologies (ICT).

**Stay tuned for details and updates. We will continue to share exciting developments with you.**
